Affairs in Spain—Quiet Restored in Madrid—The Resignation of the Figueras Cabinet Accepted—A New Ministry Agreed Upon—Another Mutiny of Soldiers—Khivans Defeated by a Russian Column.

SPAIN.

The Cabinet Crisis—A Conflict Feared.

LONDON, June 12.—A special from Madrid reports that the crisis in the Government of Spain continues and fears are entertained of a serious outbreak. The Cortes remained in secret session most of yesterday, and during its deliberation armed volunteers surrounded the palace. A large body of police was concentrated at the column of the Dos de Mayo, and troops were posted at the other palaces in the city. The irreconcilable press openly advocates revolution. The situation is very disquieting.

A Madrid dispatch of last evening says the irreconcilables are opposed to the formation of a ministry from the Right. Armed irreconcilables and partisans, and a majority of the Cortes respectively occupy the strategic positions in the city, and a conflict is feared. At a meeting of the Deputies belonging to the majority, it was agreed, in order to conciliate the opponents, to propose a ministry to be composed of four Conservatives and four irreconcilables.

A New Ministry Agreed Upon.

MADRID, June 12.—The Cortes accepted the resignation of the Figueras Cabinet, and at a meeting of the majority last night the following ministry was agreed upon: President of Council and Minister of the Interior, Senor Margyll; Minister of Colonies, Senor Sorin; Foreign Affairs, Muzo; War, Estavano; Marine, Aurich; Finance, Ladus; Public Works, Bunot; Justice, Gonzales. The authorities are determined resolutely to sustain the majority in whatever measure they may adopt. Figueras has left Madrid.

Senor Figueras Going to France.

Senor Figueras has arrived at Huezea. He is going to France.

Another Mutiny.

A regiment of troops stationed at the town of Murinedro, fourteen miles from the city of Valencia, mutinied yesterday and murdered their Lieutenant Colonel.

Quiet Restored in Madrid.

MADRID, June 12.—The excitement which prevailed in Madrid the past few days has greatly subsided, and the city has been quite calm to-day. The armed factions which were posted at different points have been withdrawn, all parties having accepted the ministry formed by the majority of the Cortes last night.

KHIVA.

An Engagement with Russians—The Khivan Forces Defeated.

ST. PETERSBURG, June 12.—The columns of the expedition against Khiva which started from Djizak and Kasalivisk effected a junction at Chalact on the 11th of April. On the 27th of April a Khivan force attacked the Russian vanguard near Chalact, and a sharp engagement took place, during which two Russian Colonels were killed. The Khivans were finally defeated and retreated precipitately.

Later.

ST. PETERSBURG, June 12.—Later dispatches from Central Asia, received in this city to-night, state that the vanguard of the force marching against Khiva from the east, under the command of General Kauffman, reached the Amur Daria river on the 11th of May, where it met and put to flight a body of 3,500 Khivans, without the loss of a single man on the part of the Russians. After waiting until the 14th ult., by which time the remainder of his force came up, General Kauffman continued his march toward Schuruk have.

GERMANY.

Diplomatic.

BERLIN, June 12.—Herr Kurd Von Schlosser, German Minister at Washington, has arrived in this city. It is not likely he will return to the United States. Herr Von Krause, at present attached to the German legation in London, is to be sent to Washington as Charge d' Affaires.

The Conquered Provinces.

BERLIN, June 12.—It is probable that Parliament will adopt a resolution extending the provisions of the Constitution of Germany to Alsace and Lorraine. Should this measure be carried out, Alsace and Lorraine will be entitled to elect fifteen members of Parliament. None of the inhabitants who chose the French nationality will be allowed to vote until they have sworn allegiance to Germany.

JOHN HIPPLE MITCHELL.

A Statement from the Senator—Seeking Obscurity Solely on Account of Domestic Troubles—The Changing of His Name a Great Blunder.

The following statement over the signature of John H. Mitchell, is published in the Portland *Oregonian* of June 2:

Inasmuch as certain articles have appeared in newspapers of recent dates reflecting in serious terms on my conduct in my native State (Pennsylvania) in early life, I submit to the people of Oregon, who have known me intimately for thirteen years, the following statement and evidence in answer to the charges made in such articles.

In so far as the charges, first put in circulation by an anonymous correspondent, impute to me any dishonest act, I deny them, and each and all of them positively, unequivocally and absolutely, and pronounce them and each of them wholly false. And I submit to the people of Oregon, that though it is a fact that I had my misfortunes in early life and encountered domestic troubles of a painful character, resulting in separation and divorce—troubles which I trust your generous indulgence will permit me to pass in silence—it is my privilege to be able to say that in all the time that I resided in Pennsylvania, I committed no wrong, nor did any act, that has ever lost to me the confidence or esteem either of my former law partner there—Colonel John M. Thompson—whom the articles in question charged me with wronging, or of any one who had the intimate knowledge of my history that he had;—and so far as all the charges against me are concerned, I prefer, rather than giving my own version, to abide the testimony herewith submitted, coming as it does from men of prominent position and unimpeachable integrity, most of whom know personally my whole history in Pennsylvania from earliest boyhood, and all of whom have full knowledge of my reputation there now.

Any charge or pretence that I ever wronged my former partner, Colonel Thompson, or any other man in Pennsylvania, or elsewhere, out of one cent or any amount whatever, or ever attempted to do so, is untrue. That I ever had any difference or difficulty with that gentleman, as charged, or in any manner or for any reason, is equally false. On the contrary, I have always had, and still have, his confidence and respect.

It is true that at the time I left Pennsylvania the law firm of which Col. Thompson and myself were the only members, had an unsettled business, including an amount of outstanding accounts in which I had one-half interest. The firm was also indebted in certain amounts. Before leaving the State I transferred to my partner all my interest in said firm, together with certain other property, which at that time was believed to be amply sufficient to meet all demands; and the whole business was settled up to the full and complete satisfaction, not only of my said partner, but of all other persons, and without the loss of one cent to any one. In the settlement of this business and sale of property a deficiency existed of a few hundred dollars, which I subsequently paid; and in support of the statement here made, as well as in evidence of the confidence in which I am held to-day by my old friends and acquaintances in Pennsylvania, I herewith submit a dispatch, received by me on the 27th inst., from said law partner:

"BUTLER, PA., May 27, 1873.

"*To John H. Mitchell, United States Senator:*—No man in Pennsylvania ever lost a cent by you. You have and deserve the confidence and good will of every man who knows you. Fear nothing from this State. Your friends will not desert you while they know the whole truth of the case. Your record here is all right. Call on me in any way you think proper.

"JOHN M. THOMPSON."

Without conceding that it is the right of any man to demand that I should lay my domestic affairs before the world, I simply state that misfortune in respect to these relations was the sole cause of my course in leaving my native State, and I aver that I was and am justified not only in my own mind in the course I pursued, but also, so far as I am aware, in the opinion of all candid persons well acquainted with the facts. As an evidence of the truth of what I say, and as a further vindication of my character for integrity in relation to the matters charged, I herewith submit a telegram from Hon. Samuel A. Purviance, of Pittsburgh, Pa., for several years member of Congress from that State, and at present a member of the Constitutional Convention now in session in Philadelphia, a gentleman who has known me intimately from childhood, and is familiar with my whole history in Pennsylvania, and whose integrity will not be questioned by any man who knows him:

"PHILADELPHIA, PA., May 27, 1873.

"*To John H. Mitchell:* In leaving Pennsylvania it was not alleged, I believe, that you were indebted to any one but your Pennsylvania law-partner, Col. John M. Thompson, and I know the fact from Col. Thompson himself that you do not owe him anything; and further, that your relations with him continue to be of a most harmonious character. I believe that no man in Pennsylvania ever lost a dollar in consequence of your leaving the State. The cause of your leaving the State was well understood to be to get rid of trouble of an entirely domestic nature. SAMUEL A. PURVIANCE."

I also herewith submit the following from a letter addressed to me at Washington city, dated at Pittsburgh, Pa., April 1, 1873, and written by Samuel A. Purviance:

"If you should need any certificates of your standing before you left Butler, you can have them, as your course was universally justified by every one.

"Yours truly,
"SAMUEL A. PURVIANCE."

Owing solely to domestic troubles, seeking at that time only obscurity, and hoping that I might be forever separated from some of the memories of the past, but having committed no wrong act to be concealed, neither contemplating the commission of any, I in my then perturbed state of mind decided to be known and called thereafter by my mother's maiden name—Mitchell—which was my middle name by baptism. This I frankly concede was an indiscreet, ill-advised and injudicious act, a great blunder, a foolish mistake. I offer for it no excuse save my inexperience in the world, and a great desire to separate myself, as far as possible, from a past that was, and is, inexpressibly painful. It was a violation of the conventionalities of life, for which I would gladly atone by a life's labor. It is not, however, in contravention of any public law. The act at once became irretrievable. I leave it to others to judge whether, thus yielding to the misdirection of a perturbed mind in days of dejection and sorrow, is a sin that years of honorable effort in the walks of daily life cannot atone.

Herewith I print a dispatch from Winfield S. Purviance, Esq., a member of the Pittsburgh bar, at present, formerly a resident of Butler, Pa., a gentleman whose integrity cannot be questioned. He has known me from boyhood, and is familiar with my history and present reputation in Pennsylvania.

"PITTSBURGH, PA., May 27th, 1873.

"*To Hon. John H. Mitchell, Portland, Oregon:*—Your character before you left Pennsylvania was unexceptionable, and I never yet heard it doubted, but that you were perfectly justified in leaving as you did. The allegation that you absconded with money is, and was false. W. S. PURVIANCE."

I also herewith present a dispatch sent me by Hon. Simon Cameron, United States Senator from Pennsylvania, who has full knowledge of my history in that State and of my standing there now:

"HARRISBURG, PA., May 27, 1873.

"*To Hon. John H. Mitchell, U. S. Senator, Portland, Oregon:*

"When you left Pennsylvania your reputation was as good as any public man's in your county. All who knew you speak now in high terms of your integrity and purity of character, and feel honored by your election to the Senate—in all of which I join.

"SIMON CAMERON."

I was born in Washington county, Pa., June 22, 1836; I was educated at Witherspoon Institute, Pa., studied law with the law firm of Purviance & Thompson, composed of Hon. Samuel A. Purviance and Colonel John M. Thompson, whose testimonials are herewith submitted.

In conclusion, I submit upon considerations, not of sympathy, but of simple justice, whether in the light of the statement and evidence here present, and of my department among you for the past thirteen years, I am entitled to your future confidence and respect, or deserve your condemnation, I stand to day strong in the full consciousness that in reference to the matters alleged I have been actuated by no evil intentions, and feeling and knowing that I have presented these matters in all truthfulness, with your judgment I shall remain content.

Respectfully,
JOHN H. MITCHELL.

BROWNSVILLE.

Terrible Accident—Low Water—Night School—Postoffice, &c., &c.

BROWNSVILLE, June 12, 1873.

Correspondence of the Pittsburgh Gazette.

A LITTLE BOY BURNED TO DEATH.

A little son of William H. Holmes, Esq., was so terribly burned that he lived but a few hours. We are informed that a number of boys were playing "torchlight" with some old "Wide Awake" lamps, filled with carbon oil, when some of the fluid being spilled upon the little fellow, it ignited. He was a bright, interesting boy, about six years of age.

LOW WATER.

Navigation has been rendered somewhat tedious by the condition of the river. It is very low for the time of year.

NIGHT SCHOOL.

Rector Heyden, of St. John's Episcopal Church, West Brownsville, has opened a night school for the benefit of persons whose time is otherwise employed during the day. We trust our friend Heyden's school will be liberally patronized, as this is certainly a commendable enterprise.

PACKET COMPANY.

The Mail Line, being desirous to accommodate the business public, are running a through boat from Pittsburgh to Geneva Tuesdays, Thursdays and Saturdays, on the same time as the Independent Packet Company, West Virginia. Now if our friends of the Mail Line are so anxious to accommodate the travelling public, we would recommend that they run this through boat on Mondays, Wednesdays and Fridays.

POSTOFFICE.

J. S. Wilgus has been installed as postmaster. He has fitted up the office in elegant style. Success to the P. O. Department.

COLONEL J. W. FORNEY'S "Anecdotes of Public Men," which has been running in series in a Washington Sunday paper for a long time, is in preparation by Harper & Brothers.

THE CONSTITUTIONAL CONVENTION.

Members of the Legislature—Mr. D. N. White's Amendment, Dividing the State into Fifty Senatorial Districts, Adopted—New Article Presented by Mr. Buckalew—Salaries of the Convention Officers—Mr. Cowan Declines and Mr. Bullitt Appointed.

MEMBERS OF THE LEGISLATURE—MR. D. N. WHITE'S AMENDMENT ADOPTED.

In Wednesday's afternoon session of the Constitutional Convention the section of the article on Legislature for an increase in the number of members of both Houses was discussed at length, many members urging the adoption of some definite system by which the unfairness of State apportionments of the Legislature would be corrected, and the "gerrymandering" process be done away with.

An amendment by Mr. D. N. White, of Allegheny, was finally adopted, providing for the division of the State into fifty Senatorial districts of compact contiguous territory, as equal in population as possible, each district to be entitled to elect one Senator; no county to be divided in the formation of the district unless such county is entitled to two or more members; and no county or city to be entitled to more than one-sixth of the whole number of Senators. The House of Representatives to consist of not less than one hundred and fifty members on a ratio of twenty-five thousand inhabitants to each member; no county to have less than one member; the city of Philadelphia, or any county having an excess of three-fifths of said ratio over one or more ratios, to be entitled to an additional member.

Without disposing of the section the Committee rose.

NEW ARTICLE PRESENTED BY MR. BUCKALEW.

Mr. Buckalew, Chairman of the Committee on Elections, reported an article on representation in the Legislature. It provides for the election of Senators from the State at large, one half every second year, each voter to vote for a majority of the members. The House of Representatives is to be constituted as follows: After each United States census, the population to be divided by one hundred and fifty, the quotient to be the representative ratio; each county to have at least one representative, except the six smallest, which are made into districts; a county with a fraction of three-fifths to have a second member; one with two ratios and four-fifths a third member; larger counties to have a representative for each ratio. The counties of Philadelphia and Allegheny to be divided into Representative Districts, each of these to elect not less than three, nor more than six; the Representative Districts to be made to represent fairly each division of electors as exhibited in the returns of the popular elections. The Secretary of the Commonwealth, Secretary of Internal Affairs, and Attorney General, are required, after each census, to apportion the representatives to the several counties according to the Constitution, and the Governor to make proclamation thereof. This report substantially covers the subject under discussion during the day. It was ordered to be printed.

MR. COWAN DECLINES—MR. BULLITT APPOINTED.

Judge Woodward stated that a telegram had been received from Mr. E. Cowan, appointed to fill the vacancy occasioned by Mr. F. B. Gowan's resignation, declining the appointment on the ground of professional engagements. On motion, the vacancy was declared to still exist. The delegates-at-large, with Mr. Gowan, were empowered to fill it. Adjourned.

On Thursday morning Judge Woodward reported that the delegates-at-large selected Hon. John C. Bullitt, of Philadelphia, to fill the vacancy of F. B. Gowan. Mr. Bullitt being present, advanced to the Clerk's desk and was sworn in.

INDUSTRIAL INTERESTS AND LABOR.

Mr. Henry C. Carey, Chairman of Committee on Industrial Interests and Labor, made a report, which was ordered to be read and printed.

SALARIES OF CONVENTION OFFICERS.

The report from the Select Committee on salaries of clerks and other officers of the Convention came up for consideration.

Mr. Bartholomew, of Schuylkill, moved to amend, leaving the amounts reported for the chief clerk and his assistants, $2,750 each, unchanged, by fixing the salaries of sergeant-at-arms at $1,800, and all other officers at $1,750 each. After considerable discussion the motion was lost. The vote was then taken on the officers separately. The chief clerk and his assistants had their salaries fixed at $2,750 each; the transcribing clerks, ten in number, $2,000 each; sergeant-at-arms, $2,000; assistant sergeant-at-arms, $1,800; doorkeepers, two, $1,800 each, and postmaster and assistant postmaster, $1,800 each.

AMERICANS AT THE EXPOSITION.

Letter from Hon. Jackson S. Schultz.

The following extract from a letter from Hon. Jackson S. Schultz will serve to explain some of the reasons for the backward condition of affairs in the American department of the Exposition:

"By some of the European and all of the American press, the American department at the Vienna Exposition is represented as in much disorder. Without attempting to defend the Commissioners from censure, if the facts shall ultimately seem to warrant it, I do wish to say, with reference to the machine department, (and this argument is the one most complained of,) that we have been ready to put up our machines for more than two weeks, and have all this time been waiting for the erection of a track—the connection of the boilers with the engines—and the placement of the main driving shaft and pulley. All of these are to be put up by the Austrian Government. Within forty-eight hours after these shall be completed, I venture the opinion that all our shoe and other machinery will be in running order. Under these circumstances it seems unjust to censure those having in charge the American department for delays. Being on the spot, and knowing fully the situation, I venture the opinion that the whole American department will be in order, all the goods on exhibition and properly catalogued before any other nation, England not accepted. Of course, our department is much more limited than many others, but such as it is, it will be exposed to view and fully completed within ten days from this date, or certainly by the 15th of June, and this I feel confident cannot be said of any other nation. The Austrian Government should have taken one year more to prepare for this exposition. Not only are the grounds not finished, but all those facilities which they had promised are incomplete. The English have pushed their steam work forward by the employment of large gangs of workmen brought from home, and quite independent of the Austrians; but other nationalities that have depended upon the Austrian mechanics are behind, and should in no way be held responsible for the delays that have occurred. The shoe machinery, when in full operation, will attract much attention. Many people from a distance are here waiting the results promised. There seems to be no doubt that the enterprising gentlemen now here having it in charge will meet with all the success they have contemplated.

The Advance of Cholera.

Southern journals come to hand full of warning, of suggestions, preparations, and objurgations, made in the name of the approaching cholera. The Nashville *Banner*, under date of June 7th, urges upon its readers full and immediate adoption of all sanitary measures. There are but twenty-six scavenger carts in that city, but the Chairman of the Street Committee follows them up town and down town to see that their work is well done. A proclamation of the Mayor urges all good citizens to clean their premises daily under penalty of a fine. The *Banner* issues a programme of summer diet in view of a temporary mortality from cholera morbus. The *Union* of the same date regrets that Nashville is the dirtiest city on the continent. The Philadelphia *Press* of yesterday reports three deaths by cholera in Nashville on Saturday, and claiming that the disease is established in that city and Memphis, predicts its probable immediate visit to St. Louis, Louisville, Cincinnati and Pittsburgh, along the river lines, with a possible incursion from the latter city to Eastern cities which are neglecting sanitary regulations. The Boston *Advertiser* of yesterday also comments upon a probable visit of the scourge to the great unclean Eastern cities, and declares that no attitude is more dangerous than one of confidence, whatever the grounds of such confidence may be.—*N. Y. World.*

BRIEF TELEGRAMS.

—The funeral of Ex-Minister Orr takes place in New York city to-day.

—It is reported that a treaty alliance between Germany and Italy has been concluded.

—The bankrupt Humboldt Fire Insurance Company of New York has declared a dividend of fifty-six per cent. on adjusted claims.

—The Russian iron clad, which has been building for some time past in the dock yards at Nicolaiso, was launched on Thursday, inaugurating the revival of the Russian fleet in the Black sea.

—The excitement in Memphis in regard to the cholera is abating. A number of timid people have left the city, and abstenance from stale vegetables has undoubtedly had a tendency to decrease the mortuary reports.

—Frederick Frey, a German laborer, about forty years of age, fell from a lumber pile into the bay at the Cincinnati, Sandusky and Cleveland Railroad dock, at Sandusky, Ohio, on Wednesday, and drowned before aid could reach him. He leaves a family.

—The Ohio Valley Editorial Convention met in Circleville on Thursday. Resolutions were adopted determining not to abate the price of postage from the subscription price of newspapers, and asking Congress to amend the postal laws so as to frame a sliding scale of postage for newspapers published in and out of counties and States, and providing that all newspapers carried by express companies shall pay postage rates.

A FEW nights ago Professor Agassiz addressed the Boston Women's Club on "Our Public Schools." In his remarks he pointed out what he considered to be some of the radical evils of our present system. There were too few teachers for the number of pupils; too much was taught in the way of memory only, or by rote, whereas the true secret of teaching was to use the eyes, or to teach by object rather than by books. Education should begin with the earliest intelligence of childhood, and here the Professor, without indicating the system, or mentioning it at all, indirectly advocated the kindergarten.

THE MODOCS.

Gen. Davis Interviewed on the Recent Campaign.

INDIAN ATROCITIES REVIEWED.

Why the Captives Should Not be Tried by the Civil Authorities.

A DECLARATION OF CHARGES.

Narrow Escape of Captain Jack from Hanging.

SAN FRANCISCO, June 12.—General Davis, in conversation with a special correspondent of the *Bulletin*, on June 11th, gave the following statement: When I arrived on the field I found the troops engaged in war with a band of Indians, outlaws, and murderers, the wards of the General Government, that have revolted against authority, were fighting mercilessly, neither giving nor expecting quarter. I then thought the captives taken in the future should be executed on the spot as the surest and speediest method of settling the Modoc problem, when captured while fighting against the military forces of the United States, and as a seperate nation or tribe I was disposed to deal with them accordingly. Since their capture I have ascertained that the authorities of Jackson county, Oregon, have found indictments against certain members of the band, but I have not deemed it proper to turn them over to the civil courts, because they were waging war against the Government, at the time of the murders upon which the indictments are based, and also for the reason that after their capture they were prisoners of the Government, and not directly amenable to civil laws. During my command here I have observed that citizens, when desiring protection for person, property or indemnification of loss, universally appeal to the authority of the United States, but now that the war is over and the marauders are captives, both the public and local autorities want to take the punishment of the offenders in their own hands. The threats of the people, and a recent bloody act in this neighborhood, when four old, defenceless captives, *en route* from Fairchild's Ranche to camp, were murdered by civilians, indicate that a trial by civil law would be a useless farce. The people have made up their minds that the prisoners are guilty.

It is suggested that a military commission would be ordered to try the criminals. If this idea is carried out, the officers comprising the court should be of high rank, and men who have had no immediate connection with the Modoc difficulty. Such commission would probably try each case separately. It would require about six months to perform the work, to say nothing of the expense involved in such proceeding—an immense expense to the Government; besides, everybody, civil as well as military, knows that the Indians are guilty of murder in the first degree, and ought to hang. I thought I would avoid unnecessary expense and the farce of a trial by doing the work myself. Owing to the dilatory manner in which the Modocs were treated by those in charge in the beginning of these difficulties, the Indians obtained a fearful advantage over the United States. They slaughtered so many people that the country was astonished, even shocked, and now fear that they will get the advantage in the closing scenes, thus disturbing the minds of many citizens on the frontier. Justice has already been very tardy in coming. It is approaching from so many different directions, in such questionable shapes and garbs, that I doubt her success in meeting the requirements of the case.

The Indians do not recognize the jurisdiction of civil or military courts, because incapable of comprehending the workings of these. The Modoes cannot understand what is meant by a court. They have been interrogated on that subject. They would regard a court trial, with its technicalities and testimony, as a kind of "juggerly," and if convicted and sentenced to death, they could not be made to understand that justice figured in the business at all. They believe they have committed deeds that merit death. In fact, the real murderers have nearly expected to be hanged. They believe the military has the power and right to inflict punishment. The murder and arrests occurred in Oregon or California.

My proposed course was to settle the question by a single stroke. The Gordion knot was to be cut. I believe it was on acount of the prospects of the Indians. They are cooped up in tents, men, women and children, guilty and innocent also, fearing a massacre all the time. They must remain in this condition of suspense for months to come. I had procured a number of chains, rope and tackle, and all the paraphernalia of the execution. I had selected Friday last as the dooms-day. On Thursday forenoon I drew up this declaration. The charges were read to Jack later in the day.

HEADQUARTERS DEPARTMENT OF THE COLUMBIA, IN THE FIELD, TULE LAKE, CALA., June 12, 1873.—Jack—Since white men first began to travel through or settle in the country occupied by the Modocs, a people of which you claim to be one of the chiefs, they have been known as a band of merciless robbers and murderers. The history of your tribe is filled with murders of the white race. Even among your Indian neighbors you are known as a domineering and tyrannical tribe. Old settlers in the country report as many as three hundred murders committed by your people within the limits of the present generation along the shores of this beautiful little lake. In the view of which we now stand are the graves of over sixty victims of Modoc barbarity, all murdered by your immediate ancestors in a brutal act. They were peaceful emigrants, men, woman and children passing quietly through the country on the public highway. For these many crimes no adequate punishment has ever been visited upon the guilty, either as a tribe, or individually. Upon the contrary, the Government has lately overlooked them. A few years ago, regardless of these acts of treachery, it gave you a reservation of that land for a home, where, if you chose, you could remain, and enjoy the annual bounties of the Government unmolested. You all went upon the reservation thus provided, and part of your tribe has remained; but you and your band seem to have preferred the war path. You left the reservation. You spurned the kindness of the Government, even resisted the soldiers in the execution of their duties to force you back to the reservation. You hastened the war. Emulating the bloody deeds of yours fathers, you again strewed the shores of Tule Lake with the slain victims of your bloody hands. All these victims were peaceful citizens, unsuspecting—slaughtered while in their daily avocations. You then fled to your stronghold in the Lava Bed, prepared for war, and defied the power of the Government. Still the President at Washington ordered the soldiers to desist until the Peace Commissioners could have a talk with you, if possible to avoid the shedding of more blood. Their efforts were fruitless, after much delay and many attempts at conciliation. Then part of you decoyed the Commissioners into your hands, armed or unarmed. These acts have placed you and your band outside of the rules of civilized warfare. In other words, you have made yourselves outlaws. Since my arrival here as the successor of General Canby, whom you murdered with your own hands, I have made unremitting warfare upon you, until you have at last been captured after much expense to the Government, and the loss of many valuable lives. Now that I have presented to you the history of your tribe and the recent acts of yourself and band, I will close this interview by informing you that I have this day directed that you and the confederate members of your band be executed at sunset to-morrow, in the presence of the troops paraded for that purpose, your people and the assembled citizens of the country.

While I was preparing a list of those I intended to execute, a courier arrived with instructions from Washington to hold the prisoners until further orders. After the execution I intended organizing all forces for the purpose of starting for Columbia, probably for Lapwai, saving and taking with me as many chiefs as possible while *en route*. I knew that a prompt execution of the Modoc outlaws would facilitate a peace talk among the Indians of Oregon, Washington Territory, or California, and have a tendency to quiet the Indians all through the country. The Indians all know that we have captured the Modocs. They will quickly learn the news if the death penalty is inflicted. The achievement would result in mutual benefit to both Indians and whites. With the prestige the troops have gained we could do great good by such a campaign.

Apaches Invading Sonora.

SAN FRANCISCO, June 12.—Last Monday a band of Apaches started south, probably to invade Sonora. Another band is besieging Santa Cruz, Sonora, five miles over the border.

SHAMOKIN, PA.

Verdict of the Coroner's Jury on the Mine Explosion.

SHAMOKIN, June 12.—The body of Conrad Drumheiser was found early this morning, horribly burnt and mangled. The following is the verdict of the coroner's jury: "Conrad Drumheiser, inside boss, came to his death by an explosion of fire damp, caused by said Conrad Drumheiser, inside boss, having entered a portion of an old work with a naked lamp, causing an explosion." The jury unanimously acquitted the operator and superintendent.

—General L' Aadmirault has applied to the French Assembly for authority to prosecute the Communist Rane, now a member of that body.

BOSTON.

The Bankrupt Case of Bowles Bros. & Co.

BOSTON, June 12.—In the bankruptcy case of Bowles Bros. & Co., a hearing was had to-day before Judge Lowell, upon the question of the creditors accepting or rejecting the offer made by Nathan Appleton for a compromise. John C. Rope, counsel of the assignee, stated that the amount of Mr. Appleton's assets, as computed by him, was less than two hundred thousand dollars. The assignee, Henry J. Stevens, reckons the assets of Bowles Bros. & Co., when collected, to be from thirty-five thousand to fifty thousand dollars in Boston. A. Van Wagner, of New York, himself a creditor and counsel for many creditors, objected to the acceptance of the offer. He was willing in his own behalf and in behalf of the creditors he represented to accept fifty per cent. outright of their claim. The assignee stated that he presentd the offer as it was made by Appleton, and he placed the responsibility of its acceptance or rejection upon the creditors. The offer being opposed by the creditors, and being conditional upon their acceptance, it was not passed upon by the Court.

Charles Bowles defended their estate from partial and depreciatory reports, urging the immediate release from law and ruin, and supplementing Appleton's offer with a plan for funding and gradually extinguishing the debts. The firm proposed to call another meeting of creditors for final action.

Master Car Builders' Convention.

The master car builders in Convention, to-day, after some discussion, postponed till the next annual meeting the consideration of the subject of warming and ventilating cars.

Counterfeit currency of ten cent denomination was discovered in circulation yesterday. The counterfeit is unusually well engraved and printed.

The Goodrich Mystery.

William Goodrich has requested Coroner Whitehill, of Brooklyn, to conclude the inquest in the case of his murdered brother, Charles Goodrich, before June 28th, as he will sail for Europe on that date.

Theatrical Suit.

Suit has been brought by Henry C. Jarett, operatic agent of Pauline Lucca, to recover seventeen hundred dollars for services rendered as agent to Clara Louise Kellogg. Jarett claims he negotiated her contracts with Maretzek and others, and is entitled to the payment in such cases allowed. On the other hand, it is denied that he acted as agent or manager, Miss Kellogg making her own contracts with Maretzek and receiving no managerial aid whatever from Jarett during the operatic season, for the reason that he acted solely in the interest of Lucca.

....The Consolidated and Pittsburgh Gas Companies are in imminent danger of coming to a conflict. They are both trying to lay pipes on an equal line on Penn avenue, which seems to lead to some unpleasantness and a little bad feeling. The matter will undoubtedly be brought before the Courts.

....Our Reporter erred in stating in yesterday's *Gazette* that the time fixed for the Delegates to the Episcopal Convention to visit Claremont was Thursday morning—instead of Friday morning. The visitors will leave the West Penn R. R. station, Allegheny, at eleven o'clock this morning, on a special car provided for the occasion.

....Samuel A. Clark, the bigamist recently arrested in this city, and convicted last week at Uniontown, Pa., was sentenced to pay a fine of five hundred dollars and be imprisoned one year in the Western Penitentiary. A propensity to indulge in the luxury of more than one wife is not fostered to a very great extent in Fayette county.

Church, Allegheny, will take place in that Church this evening, and like all those that have preceded it, will no doubt be a very pleasant and enjoyable affair. The ladies of the congregation have provided an abundance of strawberries and ice cream, and in addition, some excellent music will be rendered by the choir under the leadership of Prof. W. B. Slack.

......The June number of "*The Fireside Companion*," published by S. L. Cuthbert, is out. The successive numbers of this family monthly, as they appear, fully justify the promise of the first issue, and the favorable opinions and predictions of the press. It is full of choice original and select reading, such as should be welcome at every fireside, or in the summer, under every shady arbor.

....It is interesting to notice a man of tender corns on a croquet ground. He will stand around, always in the way, until some sunny-haired maiden croquets on his pet toe, and then he will throw his mallet wildly among the players, and go waltzing off on one leg among the shrubbery, choking himself black in the face with exclamations he dare not utter, while the maiden will smile serenely and murmur, "Oh, I did not mean to."

....Perhaps the senior editor of the *smallest* has not yet fully recovered from the peculiar "enthusiasm" indulged in at the time of the last Mayoralty election, and is to be excused, therefore, if facts are distorted by him, or if, when the truth is shown—as in the case of his mis-statements in reference to this paper—the error is not corrected; either that, or else the scribe believes that a lie well held to, is better than the truth for *him*.

....The will of Mr. Joseph Guy, late of Findley township, is being contested before Register Gray. There is about $60,000 involved in the dispute. The deceased, it seems, devised nearly all his farm to his two sons, and the daughters, who are married, contest on the ground of the incompetency of the father to make a will at the time, by reason of old age. The names of the contestants are Dr. Alexander G. McCandless and wife, Andrew Burns, a son-in-law of the testator, Jacob Johnson and wife and Ellen Duncan.

COMMITTEE ON APPEALS.

Consideration of Appeals Last Night from the Assessment of the Board of Revision—Reductions, Refusals, &c.

The Committee of Council appointed to hear and decide upon Appeals from the assessment of the board of revision, held a meeting last night at the office of the City Assessor Phelps, in Municipal Hall. The following members were present: Messrs. Fulton, Bryer, Galvin, McClurg and McCandless. There were only ten appeals in the hands of the secretary, Mr. Morrow.

The first was from A. G. McCandless. His property in the Eighth ward consisting of three lots and three brick houses, had been assessed by the Board at $25,430. The cash valuation placed upon them by Mr. McCandless is $21,950. He would sell them for that sum in cash. On motion, the appeal was granted and the assessment reduced from the former to the latter sum.

The second appeal was also from Mr. McCandless. His property, consisting of a lot and two houses, situated in the Eleventh ward, had been assessed by the Board at $6,900. The cash valuation placed upon it by him is $5,000. The reduction was granted.

Appeal No. 3 from P. C. Cortelyo. Property situated in the Fourteenth ward. Assessment of the Board of Revision, $20,000. Cash valuation of the owner, $6,000. Appeal laid over until Mr. Cortelyo, who resides in New York city, could be heard from.

Appeal No. 4 from G. C. Davis. Property situated in Sixth ward consisting of lot 86x140 feet on Bluff street. Assessment of the Board $7,920. Owners cash valuation $4,000. On motion the assessment was reduced to $6,000.

Appeal No. 5 from Charlotte Caskey. Property located in Sixth ward and consisting of a lot and a two story house and stable on Bluff street. Assessment of Board $12,720. Cash valuation $9,500. On motion assessment reduced to $11,500.

Appeal No. 6, from D. R. Goucher. Property located in 32d ward, Mt. Washington, and consisting of 35 lots 25x83. Assessment of Board, $13,800. Cash valuation of owner, $7,000. Assessment reduced to $10,500.

Appeal No. 7, from M. Mawhinney & Bro., Property situated in the 14th ward. Assessment of Board, $115,350. Cash valuation, $86,750. Reduced to $96,350.

Appeal No. 8 from Jacob Daubmeyer. Property located in the Fifteenth ward, and consisting of one lot 40x100 feet, and three houses on Penn avenue. Assessment of Board $11,050. Owners cash valuation $8,200. On motion, a reduction was refused.

Appeal No. 9 from George Hamilton. Property located in the Sixth ward, and consisting of a house and lot on Marion street 24x103, and a lot on Bluff street 22x18 feet. Assessment of Board $7,700. Cash valuation $6,000. Reduction refused.

Appeal No. 10 from George Sheidle. Property located in the Eighth ward, and consisting of a two-story house and stable and lot 24x96 feet on Center avenue. Assessment of Board $8,260. Cash valuation $5,000. Assessment reduced to $6,000.

After the appeals had all been read and action taken upon them, the committee adjourned to meet again this evening.

OHIO ITEMS.

A WHITE woman at Troy, named Huntsinger, recently eloped with a negro, leaving a husband and four children in the lurch.

ZANESVILLE boys bathe in the reservoir which supplies the city with drinking water. The *Courier* objecting to this, shows a disposition to be too fastidious.

THE Youngstown *Register* announces: Mrs. Laura Hamilton, of this city, recovered the sum of $300 at the present term of Court in this county, in a suit brought against John Sparrow, of Poland, for selling her husband, Jesse, intoxicating liquors, contrary to law.

IN Stark county, one hundred and forty iron bridges have been erected, costing from one hundred to four thousand dollars each, and several more are under contract. In length, they vary from twelve to seventy-five feet, and the aggregate length is about a mile and a half.

THE Medina *Gazette* says a warrant has been issued for the arrest of Mrs. Cecelia Lewis, of Lodi, widow of William Lewis, in which she is charged with having administered poison to her husband with intent to kill, a month or so previous to his death by an accidental shot at the hands of Mrs. Lewis's brother.

AFTER the thunder storm of the first part of last week, in Lake county, Mr E. L. Ferris found nine of his sheep, which had taken shelter under a tree, killed by lightning. By a strange freak of the electricity, there were no marks of its action upon the tree or sheep except that upon the latter, the wool was scorched in one or two places, and that on a portion of them, the bones of their front legs were reduced to a fine powder.

A SHOCKING accident happened at Ashland last Saturday to Miss Alice Potter, daughter of W. H. H. Potter. She was working about the stove, no other person being in that part of the house, when she was seized with a spasm and fell with one arm in a kettle of boiling water and the other upon the stove. No one being present, and she, being unable to extricate herself from the dangerous position, remained in that painful and awful condition for some time. The arm that was in the kettle of water was scalded to such an extent that amputation was the only alternative.

MRS. LEE, widow of the General, will be satisfied if the Government pays her a quarter of a million for Arlington, which has been occupied as a national cemetery. There is nothing like being reasonable.

ARINORI MORI, the Minister from Japan, has wakened up to find his euphonistic cognomen very disgracefully associated with loose operations in a financial way, and with a want of courtesy to the old folks at home, that makes him a proper subject for investigation, and Arinori is to be looked after.

THE practical joke which the enterprising Such attempted to play upon Mark Twain has been turned upon its festive author, as Mark failed to appreciate the humor of the affair, and appealed to the Court, by which means Such has been enjoined from publishing a book purporting to come from the humorist, but with which that genial gentleman had nothing to do.

IT APPEARS from the traffic returns of the Suez Canal, that in eleven months of 1872–73 572 vessels passed through, against 298 in the preceding twelve months, while the tonnage increased at a still larger rate—674,818 tons, against 293,362 tons. This gives to the short cut twenty-four per cent. of all the tonnage passing at present between India and Europe and America.

PENNSYLVANIA stands second on the list for expenditures for public schools, the aggregate being over eight millions and a half of dollars. New York expends one million more, but Pennsylvania schools are not behind in efficiency—although there is yet much to learn before the system in any of the States becomes perfect, and fulfills in the highest its mission of general free education for the people.

THE State Department, it is said, has a letter from Governor Van Buren, in which he admits that he accepted bribes from restaurant keepers for "position" at the Vienna Exposition, and it is hinted that when the unfortunate Commissioner's friends see the evidence they will want it suppressed. It is to be hoped that there will be no concealment whatever; if the Government has such information, let it be brought out, and the whole disgraceful business be fairly shown up, to the end that the guilty suffer. The influence of the exposition will be healthy.

THE MacMahon Government has already resorted to the same means that Louis Napoleon used to control the provinces and swell the enormous majorities of his plebiscites. Gambetta recently produced in the French Assembly a copy of a Ministerial order dated June 4, eleven days after MacMahon's election, in which the Prefects of departments are recommended to use subsidies and other secret means for the control of the provincial press, in the good old Bonapartist way. Minister Beule, of the Interior, acknowledged that he had issued such a circular and assumed all the responsibility of having done so. A stormy scene ensued, which ended by a vote of confidence in the Government passed by the satisfactory majority of 389 to 315—a much stronger vote than that which overthrew Thiers, whose Ministry was defeated by 360 to 344.

ALREADY, we are told, "leading legal minds" have commenced work upon the problem of how to save Captain Jack's neck. They argue that a military commission for the trial of Jack and those who aided him in murdering General Canby is not legal, because General Canby was killed, not while acting as a military commander, but while officiating in the *role* of Peace Commissioner. He went out on a mission of peace, was killed while negotiating, and therefore can only be tried by the civil authorities. We are getting used to such legal technicalities, and if they operate to protect lawlessness and murderers, amid the "civilization" and "refinement" of the East, why not allow them the same influence for the protection of Western uncivilized criminals? The interests of justice may be disregarded as easily in one place as the other.

THE trouble in reference to supplies of postal cards seems to be about over, as the Morgan Envelope Company, by which they are manufactured, has at last secured a sufficiency of presses and material to produce at present half a million daily, with a prospect of doubling that amount in a short time. Postmaster General Creswell accordingly has concluded to give the contractors a little longer time to fulfill their promises. The following official statement shows the present condition of the postal card contract: Requisitions have been made on the contractors to date from 1,542 post offices for 28,871,000 postal cards. Orders are suspended at the Post Office Department from 3,818 offices for 7,135,700, making the total number of orders for them from 5,360 postmasters, 36,006,700. There had been issued up to noon Wednesday, as per telegram from Springfield, 12,038,000, leaving 23,938,700 postal cards ordered but not yet finished.

THE *Journal Officiel*, the French Government newspaper, declares that of the three milliards which remained to be paid to Germany, one was entirely discharged last autumn. The second has been already paid. The third and last milliard (the fifth of the entire indemnity) will be delivered to the German Treasury in four equal payments—on the 5th of June, 5th of July, 5th of August, and the 5th of September of the present year. In return the Emperor of Germany has engaged to evacuate, on the 5th of July next, the four departments—Vosges, Ardennes, Meuse and Meurthe-et-Moselle—as well as the fortress and arrondissement of Belfort. The evacuation is to be effected within four weeks from that date. As a pledge for the last two monthly payments the fortress of Verdun and the military district around will alone continue to be occupied until the 5th of September. They shall be evacuated within two weeks from that date.

SOME of our financiers are trying to discover how we are to get the "hard pan" awarded us by the Geneva Tribunal. The award is to be paid in coin at Washington, but if any other arrangement could be made, all parties interested would be pleased to avoid the necessity of transporting from over the seas, twenty-three tons of gold. The authorities at Washington are figuring upon the problem; and the most feasible plan, which it is thought will be adopted, is this: By the purchase in England, through designated banking firms, some of them connected with the syndicate, of five-twenty bonds to the amount of the award, these to be sent to the United States Treasury for redemption. The gold thus accruing will be deliverable in Washington without the necessity and risk of transportation across the ocean, the equal amount of gold in the Bank of England having been previously used in the purchase of the bonds. Those who conduct the transaction, receiving gold certificates, could place them in the hands of the Secretary of State, and this would be equivalent to the coin for which they could immediately be exchanged. Such, there seems to be no doubt, will be the mode of payment.

OUR IMPORTATIONS.

One of the ideas on which protection is based is, that by levying duties on articles that come in competition with American productions or manufactures of the same nature, we encourage, and even enforce home production and manufactures. This country has a climate and soil, so diversified, and minerals in such variety and abundance, that there is little produced or manufactured abroad that cannot be as well and cheaply produced here. And even if for a score of years, or even for half a century, some inconvenience be suffered, because of the measures employed to compel certain forms of development, it is contended that at last the entire country will be permanently benefited. This is not a theory, simply. This was precisely the policy of Great Britain during her long period of struggle to establish her own manufactures. Her colonies were absolutely prohibited from manufacturing iron, and tariffs were established that utterly prohibited the importation of iron, pending the establishment of home manufactures. The policy was wise. It forced home development, while it protected it, and once the advantage of position secured, and she threw open her ports, traded with, and made herself the money autocrat of the world.

Our growth will be slow, because the policy of protection is not fully maintained. This is amply proven by the extent and kinds of importation annually received from foreign countries. Our imports for 1872 aggregated $677,144,579 in gold—over $87,000,000 more than in 1871. Of this large importation, one-fifth came in free, and four-fifths paid duties. An analysis of articles entering into this importation from abroad will show that most of what we purchase from others might be produced by ourselves. More than one-half of our imports—some $350,000,000—was composed of sugar and molasses, coffee, cotton, woolen and silk goods, and of iron and steel and manufactures thereof. The heaviest importation was of sugar and molasses and their manufactures. The value of these articles was over ninety millions of dollars, this being nearly one-seventh of the entire trade. The second was wool and woolens, of which we imported nearly eighty-two millions. Iron and steel were third in the list, England and Germany sending us nearly sixty-two millions. The fourth article was coffee, of which we got forty-two millions; the fifth cotton goods, thirty-six millions, and the sixth silk goods, thirty-five and a half millions. These six classes of articles made up more than one half the import trade of last year.

Not to go too much into details, we mention a few other articles, which were imported in large quantities: Thus of tea during 1872, we imported over twenty-four and a half millions; of hides and leather, twenty-eight millions; of flax and linen goods, nearly twenty-three millions, and of gold and silver, over twenty-one millions. Nearly eleven millions of chemicals also came in, exclusive of a large amount of acids, salt and similar goods that are separately classified. Of foreign fruits we consumed ten and a half millions of dollars' worth; of tin, over seventeen millions, and of foreign woods and furniture, eleven millions. There were nine million dollars worth of foreign wines imported, and a little more than that amount of Cuban tobacco and cigars. We got nearly ten millions' worth of breadstuffs. Of foreign crockery, nearly six millions came in, and nearly seven millions of foreign glass. We also took over seven millions of India rubber, whilst the growth of our silk factories is attested by an importation of nearly seven million dollars' worth of "raw silk."

If our readers will be at the pains to carefully notice this list of importations, they will see that there are but few articles that cannot be produced in ample quantities in this country. Tea is an article that will require time and care to domesticate, and may be excepted from the list of producable articles; and yet, there are those who contend that we have the soil and climate necessary to its production. Those who are fond of the weed, also claim that Cuban tobacco and cigars are possessed of qualities that cannot be developed in this country. We have not the detailed list of chemicals imported, but possibly there are some chemicals that we cannot supply, at least, in the quantity, and of the quality desired.

But these items aside, and this country is amply prepared to supply all else needed, so far as included in the above mentioned list. The truth is, we are not careful to raise articles of necessity, and which would command a good price in the home market. We saw it stated, recently, that Chicago, located on the border of the fertile prairies, capable of producing in abundance, any kind of garden vegetables and fruit, actually imported asparagus, peas, and canned fruits in the season for natural fruit. Whether this particular statement is true or false, it illustrates a very common fact,—that we import, to a large extent, what we might as readily produce. And the fact that we do this is an argument in behalf of protection that cannot be gainsaid. We would be glad as regards some of these, if the word compulsion were substituted for protection,—and a tariff levied on certain articles that would *compel* their production here. The great need of the times, for the people here, is that they be induced to ascertain and develop the resources of the country. This done, and in ten years we could be independent of the world.

POLITICAL NOTES.

"BUTLER CLUBS" are increasing in Massachusetts, according to the Boston *Post*. When that paper says a favorable word about General Butler it will certainly be strange tidings from the East.

THE Republicans of Indiana have put the following ticket in the field: Assembly, Daniel Ramey; Commissioner, S. G. Miller; Treasurer, Geo. H. Johnson; Jury Commissioner, John Roberson; Auditor, Joseph Griffith.

THE Cincinnati *Times* insiduously remarks that "there creeps out in several of the best Kansas papers, a fellow feeling for Pomeroy, as his trial approaches, that looks as if they had been assisted to start a national bank."

COL. A. K. MCCLURE declares his intention to retire altogether from politics upon the expiration of his present Senatorial term. He expresses himself warmly in favor of Alexander Henry for Mayor of Philadelphia during the centennial year.

FIFTY SEVEN delegates to the Maine Republican State Convention have thus far been elected in thirteen towns in Kennebec county, all of whom are favorable to Mr. Dingley's nomination for Governor. Two hundred and fifty-six delegates throughout the State have been returned, all but three of whom are in favor of Mr. Dingley.

BUFFINTON, of Massachusetts, went down to Washington and took "his'n" only last week and took it home to Fall River, where he thinks it will do him good. Mr. Buffinton is a member of the next Congress, and will vote in the roll-call just before Burchard on the question (which Burchard proposes) of refunding the whole. Will he vote aye?—*Chicago Tribune.*

IF Senators Chandler and Ferry, of Michigan, are honest men, as their office-jobber at Grand Rapids says they are, to the extent of having refunded their salary-grab, why do they not allow Treasurer Spinner to say so? The mere word of the Grand Rapids office-jobber is not enough; and supercilious contempt under suspicion is not a trait of honesty.—*Chicago Tribune.*

THE candidates for the Chief Justiceship, as far as classified, are Judge Noah Swayne, Associate Justice of the Supreme Court; Judge David K. Carter, of Ohio; Judge Pierrepont, Justice Miller, Roscoe Conkling and Morrison R. Waite, of Ohio; Judge George H. Williams, Attorney General; ex Governor Morgan, the Hon. E. R. Hoar, Wm. M. Evarts, Judge Benjamin R. Curtis, of Massachusetts; Senator Morton, Jeremiah Black, Charles Sumner, Judge Doe, of New Hampshire, and Lyman Trumbull, of Illinois, with twenty-eight other States to hear from.

ONE of the leading journals of the South, in an article upon the resources and products of that section, says: What the South needs is a vigorous, healthy, moderately rich and progressive class to take up the lands and bring, as has been brought to the West, a sturdy, firm and steady growth, backed by sufficient capital.

IT is now the fashion in Paris, at receptions, for ladies to sit in the middle of a room, *back to back*, on a large ottoman, and on sofas against the walls; the gentlemen stand and walk around the bee-hive. Of course no position can be more effective for the display of dress.

A BRUTAL murder was committed in Auburn, N. Y., last Tuesday night, by Merrett Wheeler, keeper of a house of ill-fame. He murdered his mistress, Fanny Sterling, by holding her by the hair of the head and kicking her till the blood gushed from her mouth and ears, and then stabbed her in the forehead.

CHARLES H. ADAMS, who was appointed on the new Board of Commissioners at the Vienna Exposition, sailed for his post on Wednesday. He expressed the opinion that none of the suspended Commissioners would be restored, as having been suspected of wrong dealing, it would not do to reinstate them.

ARINORI MORI, Japanese Minister to the United States, according to a letter in the New York *Tribune* from Yeddo, rests under grave accusations preferred by his own countrymen. His management of funds entrusted to his care is said to have been suspiciously loose, and his conduct towards his own Government is characterized as perverse wilfulness.

DURING the year ending June 30, 1872, the United States imported 490,631 tons of coal, whereof 357,447 tons came from the New Canadian Dominion, and 233,184 tons from other countries. We exported during the same time 400,878 tons, of which 291,047 went to the Dominion, 36,000 tons to Cuba, 37,000 tons to the States of Colombia, and 18,700 to China.

A POOR widow, now living in the southern part of Delaware, has had eleven children, seven of whom were terribly afflicted, being deaf and dumb, and most of them, in addition, almost as weak in mind as idiots. Some of them have survived and reached the age of forty years and upward, and when the neighbors bring them little delicacies they caper around in greater glee than would children.

THE sea-going vessels registered at Bremen numbered 252 at the end of 1872, against 265 in 1871, while the capacity has been raised, being 232,354 tons in 1872, against 230,324 tons in 1871, showing that smaller sailing vessels are being replaced by steamers. There were forwarded from Bremen to trans-Atlantic countries 80,418 passengers in 1872, against 60,516 persons in 1871.

FRED BICKES, living in Decatur, Illinois, went home last Tuesday evening, after a three days' debauch, and was invited to take a seat at the supper table by his mother, whereupon he commenced abusing her with vile language. His father remonstrated, and told him he must cease or leave the house, at which he drew a revolver and shot his father in the face, inflicting an ugly but not dangerous wound, and then fired a ball into his own brain.

HERE is a matrimonial experience: About forty years ago a man, who then resided in Shaftsbury, Vermont, married, and after living with his wife some three years, they parted. He then married a Manchester lady and they went West. They raised a family of eight children, and the wife died and he returned to Shaftsbury and took West with him another wife. Then she died, and now he marries the woman he parted thirty-seven years ago.

THE export of iron rails from Great Britain to the United States for the four months of the present calendar year to April 30, amounted to 81,595 tons, against 180,193 tons in corresponding time last year, a falling off of considerably more than one-half. The export of rails from Great Britain for the four months of the year to all countries were 188,820 tons, against 279,251 tons in same time in 1872. While the export of pig iron is but about two-thirds of what it was last year that of old iron is slightly larger.

JACKSON S. SCHULTZ writes that the American department of the Vienna Exposition will be in complete order by the 15th of June, which cannot be the case with that of any other nation, not excepting England, which has the advantage of a corps of workingmen, brought to Vienna to hasten to complete and perfect that department. The Austrian Government, he says, should have taken another year to prepare for the Exposition. Not only are the grounds not finished, but all those facilities which they had promised are incomplete.

THE danger of standing in other men's shoes, or of wearing their cast off habiliments, is sometimes overlooked. Mr. Chevalier relates, in the *Journal de Chimie Medicale*, January, 1873, that a young man of good family died in December last, because, instead of buying new gloves, he bought a pair of cleaned gloves. Either from the cleaning having left a poisonous substance inside the gloves, or from some venomous insect lodged there, he presently felt a sharp pain in an abrasion which he had on the thumb. He bore it for a while, but at the end of half an hour he was obliged to tear the gloves off. His hand was swollen, and the spot was black. Gangrene followed, and death.

UNDER the new military law of Italy, Victor Emanuel will soon have a regular army of 300,000 men of all arms, and a reserve militia of 250,000, of which it is expected 200,000 will be effective. This will give half a million of fighting men, with over a thousand pieces of artillery. For a nation having less than one-thirtieth part of the extent of the United States, this is a pretty heavy draft from the classes best able to labor in a population of twenty-six millions. We have more than forty millions and a legitimate use for troops, yet our people would never, in time of peace, sanction the support of 50,000 soldiers. Royalty which needs such strong bolstering by bayonets can have small reliance in the love or loyalty of its subjects.

CHEAP POSTAGE, it appears, is of humble origin. An English lecturer recently told his audience that Mr. Rowland Hill saw a poor woman whose husband was away look earnestly at the outside of a letter from him and then decline to take it, as the postage was too great. He expressed his sympathy, but when the postman was gone she explained that the letter was all outside; her husband and she had agreed on signs and tokens to be conveyed by lines and dots and variations of the address, so that she could thus learn without fee that he was well or ill, was coming home soon, or wished her to come to him, or would send her money next week, and so on. The future reformer thought it a pity the poor should be driven to such shifts, and accordingly preached penny postage.

PARTIES in Illinois are talking of memorializing Congress, at the next session, to provide for the construction of a double track freight railroad between Chicago and New York, to be run at low speed and cheap rates. They want the Government to shoulder the project, and give it a public national character, but if it will not do so, they will be satisfied with the charter containing all necessary provisions as to the capital stock, toll rates, working speed, and impartial treatment of customers, reception and despatch of freight from other roads, responsibility in the courts and to Congress, yearly reports to the Interior Department, etc. Supposing the trains to run at the rate of seven miles an hour, they are confident the yearly tonnage will equal 450,000,000 bushel of wheat. Their idea is to so fix their tariff of charges that the net revenue shall not exceed 12 per cent. on actual cost, and to have the making of the dividends above that figure absolutely prohibited.

ON Monday afternoon of last week, Mr. Henry Gray, a young man about 22 years of age, while plowing in a field on the farm of his father, in Wayne township, Erie county, was struck by lightning and instantly killed. He was to have been married on the following Thursday to a young lady in Edinboro, and was buried in his wedding suit.

THE fifty-seventh anniversary of the Sabbath School connected with the First Presbyterian Church of Washington Borough, was celebrated in the church on Monday evening last. The officers are J. C. Acheson, Superintendent; Thomas McKennan, M. D., Assistant Superintendent; Thos. McKean, Secretary and Treasurer; Librarians, A. T. Baird, A. M. Todd, Alex. M. Brown, Wm. W. McKean, Jas. K. Mitchell.

FROM the New Castle *Journal* we learn that the new blast furnace of the Shenango Iron Works, of that place, commenced operations on Tuesday of last week. The Rosena is seventy-five feet high, with twenty feet bosh, and is capable of producing from five hundred and fifty to six hundred tons of pig iron per week. It is the largest but one, we believe, in the United States, and is furnished with all the modern improvements. It cost $250,000.

THE following is a list of the teachers employed in the Washington public schools: W. C. Lyne, Superintendent. Misses Lizzie Scott, Kate McConaughey, and Sade Foster, in the primary; Fannie Dagg, Sue Hart, Jennie Hart and Mattie Wiley in the intermediate, and Lizzie Shannon and Beck Turner, in the grammar department. Mr. Lyne receives one hundred and twenty dollars per month, and the lady assistants each thirty-five dollars.

THE trial of the miners in Clearfield county, for riot and conspiracy, occupied three and one-half days, ending Saturday at noon. Two of the women were fined $25 each, and costs of prosecution; one man was sentenced to serve a term of three months' imprisonment in the county jail, pay a fine of one dollar and costs; another to serve two months in the county jail, with the same fine and costs; eight others were sentenced to undergo an imprisonment of one month in the county jail, pay a fine of one dollar each, and costs of prosecution.

THEY say a near-sighted Butler county woman patched her husband's pants with a cold buckwheat cake that the children had left in her work-basket, last week. The color of the patchwork matched the original trowsers, and as the cake was tough, the mistake might never have been discovered but the old man caught in a shower a day or two afterwards. The patch began to swell; he felt the cold cake on his back, and thinking it was spinal meningitis that had clutched him, sent for a doctor, who soothed his fears; but he wants a divorce.

AT the late meeting of the stockholders of the Washington County Agricultural Society the following officers were chosen for the ensuing year: President, John H. Ewing; Vice Presidents, Wm. B. M'Kennan; Asa Manchester, Samuel L. Weir; Treasurer, John M'Elroy; Corresponding Secretary, Jas. Gabby; Board of Managers, Wm. Davis, Wm. Clark, Andrew Brady, Frank Bell, Wm. Dinsmore, John H. Little, Robert Wylie, Wm. S. Caldwell, Samuel K. Weirich, James Gordon, Asa Manchester, Samuel Weir; Committee on Fair Ground, James C. Acheson, Frank M. Gabby, James Gordon.

THE First Presbyterian congregation of Monongahela City dedicated the new church last Sunday. The Pastor, Rev. W. N. Campbell, preached the morning sermon, and Rev. J. S. Stuchill, former pastor, conducted the evening service. Reverends Williams, Scott, Hall and Kerr, were also present by invitation. This fine edifice is a credit to any congregation, and is not surpassed by many of the metropolitan churches. The *Republican* says the church of which this is the true lineal descendant, was first known as Horse Shoe Bottom Presbyterian Church, and was established, with Dr. Ralston as first Pastor, in November, 1796. Removed to this city, and first sermon preached in a log school house in 1807. The brick church in the old grave-yard was built in 1815. The church just vacated for this was built and the Rev. John Kerr ordained second regular Pastor, April 22d, 1840, who remained with us 22 years. Rev. S. G. Dunlap, the third Pastor, was installed Dec. 6, 1863, and died in 1871. Rev. Stuchill was ordained May 10th, 1867, and Rev. Campbell, the present Pastor, accepted a call Oct. 1, 1870. The total cost, when fully completed, will be $32,000.

THE *Reporter* tells how a youthful couple who were married in Washington county last week come to sudden grief ere the honey moon had scarce began. The parties were Abraham Meeks, of Hillsborough, and Miss Ella Smally, of Prosperity. The groom is a young man of about twenty-one or twenty-two years, while the bride is a lass of only fifteen summers. The courtship was a brief one, the parties having met but a few times before the marriage took place. Their courtship was chiefly done while standing along the fence where they had first met—probably not by chance but by appointment. On Friday last Mr. Meeks came to Washington and hired a horse and buggy from Mr. Sexton, and drove away. The next day, Saturday, he proceeded to the residence of Mr. Smally, the father of the girl, and as the story goes, asked him if the daughter might take a ride with him. Assent was given. It is alleged that the young couple then proceeded to the residence of a minister and had the knot matrimonial tied. On Saturday evening they came to Washington and took lodgings at the Valentine House, where they remained until Monday morning, when the trouble commenced. When the buggy was returned to the livery stable Mr. Sexton discovered that one of the springs was broken, and he also alleged that the horse had been abused. Complaint was made on Monday morning last against Meeks, and officers started out empowered to arrest him. In the meantime a seat had been secured in the hack for the bride, and when it started she was ticketed for Hillsborough. The husband had started out on foot, he probably knowing that measures had been taken for his arrest. He was overtaken on the National road, near the toll gate, a short distance east of this borough, brought back to town and committed to the care of Sheriff Ramsey for a hearing. The bride went on her way to Hillsborough, somewhat saddened at the incarceration of her loving spouse.

HUMAN AUCTIONS.

How it is Done in Switzerland—Selling the Paupers Like Slaves—A Truly Disgraceful Scene—The Peculiar Individual Cases—Exposure of Mothers, Young Girls and Lads.

In a recent number of the *Landbote* a correspondent gives a sketch of one of these "human markets," which took place in a village beautifully situated in the Zurich Oberland. Arriving at the place about eight o'clock in the morning, he saw a number of poor, miserable forms all going toward the village inn, in the dancing-saloon of which a large portion of the population had assembled. Old and young, men and women, sick and healthy, stood in a semi-circle, round a table, at which were seated the communal magnates, the orphan, helpless or forsaken children, the aged, crippled and infirm occupying the front row. After stating that the business of farming or hiring out these burdens of the commune happened to fall at an unfavorable time in consequence of bad weather, the late war, etc., the President stated the condition on which, according to old custom, children were to be taken in charge. Each "master" must keep the child in sickness or health for one year; the cost of slight illness to be borne by himself, while a grave case could be sent to the hospital. The master must also pay the school fee of any boy in his charge, for which he could exact an extra year's service as compensation. The business of disposing of the village *impedimenta* now commenced, each "article" answering to the name, age, sex, parentage, etc. There were about thirty to be thus allotted.

The first was a little girl of about nine years of age, illegitimate, whom the President introduced with the remark that, though she was like her mother, it was to be hoped that she would turn out better. Bids were made from different sides, and she was finally knocked down to somebody who offered to provide for her for 70 francs. A girl of fourteen, who seemed to be a hard case, went to a master for 20 francs. The next in order was a youth of sixteen, who, the President affirmed, was so addicted to stealing that nothing was safe from him. After a good deal of chaffering and bargaining, the lad was knocked down at 36 francs. The next case was that of a half idiotic youth, whose appearance caused a great deal of laughter and merriment. Then another little girl was brought forward concerning whom the pastor made the mysterious remark; "That child has a propensity of which one cannot speak to every one." Some laughter followed, while the girl blushed and burst into tears. The whole affair was made the occasion of the greatest coarseness and brutality. A mother now appeared before the auctioneers with her three children. "Would it not be well for us to take these children away?" asked the President. "I will not shame you by saying anything more, although a remark would not be out of place. The children need good examples." And with the like gratuitous insults they were put up for bids.

The mother begged to have her children back, but in vain, and they were finally given in charge of different masters. The master of an apprentice of fifteen was taken to task because the youth had not made his appearance. The man excused the lad by saying he was ashamed to appear before so many people, and so he had tried to make up the matter with the pastor. He was told that the youth must come in order that the affair might be arranged in an official manner, and a tipstaff was sent for the lad. An infirm old woman failed to appear on account of sickness. Those who had her in charge were well rated because her health was worse than twelve months previous, and received but eighty francs instead of ninety francs as before for her keep. Another woman who, it would appear, had been farmed out into a fresh parish every year, had the price for her board and lodging raised from 104 to 105 francs. A child was taken from one nurse and given to another for a difference of five francs, and so the business proceeded, amid a striking exhibition of coarseness and inhumanity, such as we may hope will not be annually repeated much longer.—*Swiss Times.*

REMARKS ON MONEY.

Whatever relates to money and the accumulation of wealth is sure at once to attract men's observation and secure their attention; and yet how vastly more important is the consideration of health and life, without which, such sordid accumulations are of little value. When a man, the head of a family for instance, sees a son or daughter dying by degrees with some chronic disease, let me ask, would it not be a mark of wisdom, to give a few dollars for a few years—nay even months, of healthy existence? The truth is, that Dr. Keyser, with Dr. Keyser's Lung Cure has restored thousands to health and vigor who were fast winding their way to the last resting place of all the living. The Doctor treats every chronic disease with uncommon ability, as any one may know for himself by reading his treatise, which may be had free at his office on Liberty street. Dr. Keyser's office hours every day from 10 A. M., until 1 P. M., and from 3 until 6 P. M.

PURE MINERAL WATERS.

It is astonishing what a great demand has sprung up for Mineral Waters in this city. As medicinal agents they are being very generally employed. In view of the great demand, JAS. E. BURNS & CO., the well known druggists, corner of Sixth avenue and Penn avenue, have made a leading specialty of Mineral Waters and regularly receive fresh from the original Springs, Congress, St. Louis Magnetic, Hathorn, High Rock, Saratoga and Katalysine Spring Waters, in bottles. From the great Frost King Fountain are drawn the excelsior, Vichy, Kissengen and Blue Lick Waters, together with the Soda Water with Fresh Fruit Syrups. In fact, from the great and varied stock carried by them, the house of BURNS & CO. may well be called the headquarters of Mineral Waters in the West. The other branches of the business of this first class Drug and Perfumery Depot are as fresh and inviting as ever.

GETTYSBURG
KATALYSINE WATER.
The United States Dispensatory, the authorized record of our Materia Medica, classes this water with the most renowned Alkaline or Carbonated Springs of Europe. It far exceeds any ever known in its self-preserving properties. It does not deteriorate by bottling and keeping. It has never been claimed for any other mineral water the power to dissolve the urates, or so-called chalk formations in the body or on the limbs and joints. This the Gettysburg Katalysine Water has done in hundreds of instances. *Gout, Rheumatism, Neuralgia, Dyspepsia, Gravel, Diabetes, Kidney,* and *Urinary Diseases* generally have all yielded to its influence. It has restored *muscular power* to the paralytic, cured *Abdominal Dropsy*, and given healthy action to the *Torpid Liver*. It has cured *Chronic Diarrhœa, Piles, Constipation, Asthma, Catarrh, Diseases of the Skin, General Debility and Nervous Prostration from Mental and Physical Excesses.* All these by the bottled water. It is a powerful antidote for *Excessive Eating or Drinking*. It corrects the Stomach, promotes Digestion, and relieves the head almost immediately. Pamphlets containing a history of the Spring, reports from eminent physicians and medical writers, marvelous and well-attested cures, and testimonials from distinguished citizens, will be furnished and sent by mail on application to

$100,000 for Only 10.

Enough of the 100,000 tickets issued for the Third Grand Gift Concert, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any scaling down, as heretofore, the management, with the concurrence of the trustees, have determined to allow ninety days more for the sale of the remnant of tickets left on hand. The Concert and distribution advertised for April 8th is, therefore, postponed to Tuesday, July 8, 1873, on which day, and no other, they will positively and unequivocally take place in Public Library Hall, Louisville, Ky.

The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier:

OFFICE OF FARMERS' AND DROVERS' BANK,
LOUISVILLE, KY., April 7, 1873.

This is to certify that there is in the Farmers' and Drovers' Bank to the credit of the Third Grand Gift Concert, for the benefit of the Public Library of Kentucky, five hundred thousand dollars, which has been set apart by the managers to pay the gifts in full; and will be held by the bank and paid out for this purpose, and this purpose only.

R. S. VEECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get $100,000 in Greenbacks, and so of the $50,000 gift, the $25,000, the $20,000, the $10,000, the $5,000, and all the other gifts, 10,000 in number, amounting to $500,000.

The remnant of unsold tickets will be furnished to those who first apply (orders accompanied by the money always having preference over agents) at the following prices: Whole tickets, $10; halves $5, and quarters, $2 50; 11 whole tickets for $100, 56 for $500, 113 for $1,000, and 575 for $5,000. The music on this grand occasion will be the best that can be procured, and the gentlemen who count and place the tags and gifts in the wheels and superintend the drawing and keep the record of the drawn numbers will be chosen from the best known and most trustworthy citizens of the State. All will be so conducted as to be a perfect guaranty against complaint from any just source.

The payment of gifts will begin on Saturday, July 12, at 9 o'clock A. M. Tickets drawing gifts must be presented at room No. 4 Public Library building, where cash checks upon the Farmers' and Drovers' Bank of Louisville, or sight drafts upon the Fourth National Bank of New York, at the option of the holder, will be given for the tickets. All gifts not called for in 6 months from the drawing will be turned over to the Public Library fund.

DAILY GAZETTE.

FINANCIAL.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 12, 1873.

Monetary matters remain without material change, the requirements of trade being light, and the supply of loanable funds abundant. Our banks receive all first-class paper that offers at 9 per cent. per annum, 10 per cent. being the outside quotation. Local securities are without change, the demand continues rather dull, and holders are not anxious to part with their stocks. Transactions in real estate are the order of the day, the business becomes more active as the season advances. Some heavy sales have been effected within a few days, and the announcements in our advertising columns offer great inducements to purchasers of property, either for building or speculative purposes.

The banks in Chicago take all the good paper offered at 10 ℔ cent. ℔ annum, and negotiable call loans on Governments and choice Bank stock at 7@8@9 ℔ cent. Street rates are working easier, and range from 10@12 ℔ cent. ℔ annum.

The case in the Boston money market by sales of four-month prime mercantile paper at 7 ℔ cent., the first time that, to our knowledge, any long date paper has sold so low since the late stringency, though first-class names having a shorter time to run have readily passed at that figure. The range of quotations is about from 6½ to 8 ℔ cent., the transactions above and below these extremes being somewhat exceptional.

Large amounts of money are offered in Philadelphia at 5 ℔ cent. on call, and 7 ℔ cent. on time. Stocks are lively and prices stronger; sales of new city 6s at 99½; Lehigh gold loan at 91½; Reading Railroad sold at 58⅛@58⅜; Pennsylvania and Reading Railroad at 55¼, the latter on time; Lehigh Valley at 61½; Catawissa preferred at 42, and Camden and Atlantic preferred at 42½.

Baltimore and Ohio Railroad stock closed in Baltimore at 175 bid, 179½ asked; Parkersburgh Branch 11 bid, Central Ohio com 39 bid, and City Passenger was held at 19½. A semi-annual dividend of 4 ℔ cent. has been declared upon the capital stock of the Philadelphia, Wilm. and Baltimore R. R., payable on and after the 3d July. 1,000 Baltimore and Ohio bonds, 1875s, sold at 99, an advance of ½. Pittsburgh and Connellsville advanced to 96½ bid, 96⅞ asked; Northern Central 1885s were held at 94, 91 bid; Currency 1900s at 84⅞, 83⅜ bid, and Central Ohio 6s at 87½, 87⅞.

The Cincinnati banks are taking all the acceptable paper offered at 8@9 ℔ cent. Outside of bank money is plenty, and negotiations of prime mercantile paper are readily effected at 9 ℔ cent., with exceptions at 1 ℔ cent. above and below this figure. Call loans are made at 6@8 ℔ cent., the inside figure on Government collaterals.

The earnings of twenty of the leading Western railways in the month of May last were $9,496,912, against $8,788,121 in corresponding month last year, being a net increase of $638,811. The gross earnings of the same roads for the five months of the current year were $42,351,486, against $38,148,619 in same time last year, being an increase of $3,728,169. Each of all of the twenty roads but two, the Illinois Central and the Kansas Pacific, show an increase.

NEW YORK, June 12, 1873.

Money was easy at 3@6 per cent., with the bulk of the business at 4@5, closing at 4. Sterling was firm, $109@109⅜ for sixty days and 110@110⅜ for sight. Heavy failure is reported on the Cotton Exchange. Gold fell from 117 to 116⅜ on the reduction of the rate of interest by the Bank of England, but rallied to 116⅞ @117 at the close. Loans 2@5 per cent. Clearings $67,000,000. Treasury disbursements $189,000. Customs receipts $325,000. Governments were dull and steady. State bonds were nominal. Stocks opened strong and higher on the entire list under favorable advices from London, and the efforts of the Board to cover the large short sales recently put out, combined an advance of 1@2 per cent. The greatest rise being on Western Union, Wabash, St. Paul and Ohio. Subsequently the market weakened and prices fell off, and in the afternoon the market was quite dull. Pacific Mail was the weak spot, selling as low as 39½, again to 40⅜ in the morning, it being rumored that the Company is about to issue bonds. Western Union was caught by the Smith party up to the close at 84⅜; the rest of the market except Pacific was generally strong. The following were the chief fluctuations of the day: Western Union 82⅜, 84⅛, 83⅞ and 84⅛; Lake Shore 91 and 92⅛; St. Paul 51⅜, 50⅞, 51⅜, 50⅞ and 51; New York Central 100⅞, 101⅛ and 101⅛; Pacific Mail 40⅛, 40⅞ and 39⅞; Rock Island 108⅞ and 109; Ohio 37⅞@38⅛; Wabash 65⅞ and 66⅛; C. C. and I. C. 27⅞@28⅛; Union Pacific 27⅞, 28 and 27⅞; Harlem 129⅞, 130 and 129⅞. The Treasurer of the New York Central gives notice that proposals will be received for $2,000,000 first mortgage bonds till July 21, being part of its consolidated mortgage of $40,000,000.

COMMERCIAL.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 12, 1873.

APPLES—The demand in consequence of the abundance of green truck and strawberries continues light, but prices are unchanged, ranging from $3 to $4 per brl. for good to choice.

BUTTER—There is some inquiry, but the supply is fully equal to the demand, and there is no improvement in prices; 15@18 for prime to choice and 8@12 for common to medium.

BEANS—In limited supply, but there is not much inquiry, and prices remain unchanged, ranging from $2.75@3.25 per bushel, according to quality.

BEESWAX—Quoted at 35@40c ℔ lb.

BROOM CORN—There is rather more inquiry, but the supply is fully equal to the demand, and prices remain unchanged, 4½@5½ for green, and 7@8 for hurl.

CARBON OIL—Is quiet and unchanged: 16 by the car load, and @2c more for small lots.

CANNED GOODS—Quoted in a jobbing way at $3 for 3 lb. Peaches: $2.90@3 for Winslow's Corn, and $2.40@2.50 for Tomatoes.

CHEESE—Choice Ohio Factory is fairly quotable at 12 cents to the trade, and 13 cents in a jobbing way. Dairy is exceedingly dull, and prices are lower, ranging from 5@8c ℔ lb. Choice Ohio Sweitzer quoted at 17@18.

COUNTRY BACON—Sales of Clear Sides at 7⅞ @8c—little or no call for either Shoulders or Hams and the receipts, now that the market is dull, seem to be increasing. Country Lard, 8 @8⅞.

DRIED FRUIT—There is some little inquiry for Peaches, but no improvement in prices. Prime halves, 6, mixed, 4@5. Apples 3@4c. and very dull. Blackberries, 8@10.

EGGS—With continued light receipts a very light supply, and considerable inquiry, the market is firmer and prices are still tending upward. Dealers very generally agree in holding at 22, and sales were reported at this figure.

FLOUR—The market is generally quiet and easier: but good standard brands of both winter and spring wheat are still held at full prices. We continue to quote at $8.50@9 for the former, and $7.50@8 for the latter. Rye Flour dull and nominal at $5.50@5.75.

GRAIN—There is no improvement to note in the grain trade and with continued fair receipts and scarcely an average demand, stocks are accumulating and prices are weaker. The receipts and offerings of Wheat although not large are increasing, and the market is dull and prices nominally unchanged, $1.65@1.70 for red, and white, 5 to 8c additional. The Oat market, also, continues exceedingly dull, but there is no quotable change in prices, 45@47. This market is almost entirely bare of Shelled Corn, but there is little or no call for it and prices are nominally unchanged, 56@58c. Sales of Ear reported at 55@57 by the car load—the demand is mainly for small lots. Rye is dull and nominal at 85@90, with increased receipts and offerings. Distillers in consequence of the unsettled condition of the whisky market are buying but comparatively little grain, and this, as might be expected, has a depressing influence on trade, particularly in Rye and Corn.

GROCERIES—Trade is generally reported quiet, and prices as compared with yesterday, are without quotable change. Coffee is reported easier at the seaboard, but importers are still very obstinate, as they are strongly impressed with the belief that they have the market well under control, and will be able to sustain it. The New York Shipping List of 11th quotes a decline of ⅛c ℔ lb. Refined Sugars are firmer, in consequence of the recent advance east, but there has been no advance in this market as yet: standard "A" Coffee Sugar is selling at 10⅞ to 10½, while it is said that it costs 10⅜ laid down here.

COFFEE—Choice Rio, 25; Good to Prime, 23@23½c. fair 21@22½c. Old Government Java, 31c; other Javas, 28@29c. Roasted Rio, 1 lb packages, 28c; loose, 27½c. Roasted Java, 33⅞.

SUGARS—Patent Cut Loaf, 12⅞c; Crushed, Granulated and Powdered, 11⅞; Standard A, 10⅞; B, 10⅞; Ex. C, 10⅛c; C, Yellow, 10⅞; Circle C, 10; Lower grades, 9@10.

SYRUPS—White Drips, 65; other grades ranging from 60 to 40, as to quality.

RICE—Choice Carolina, 9; prime, 8⅞. Patna, 8@ Rangoon, 7½@.

MOLASSES—Choice New Orleans, 73@75c. Prime 70@72.

HAY—Baled continues very dull and with continued fair receipts, stocks accumulating, and holders generally anxious to realize, prices are weak and drooping: we continue to quote at $20@25, although we were reported 2 cars of prime at $22. Straw is also dull and lower: Oat straw which a few weeks ago was selling readily at $20@25, will not bring much over $10@12 now.

POTATOES—The market is weaker in consequence of increased offerings, but prices are unchanged; sales in a jobbing way at 90@$1 per bushel. New Crop in better supply and lower: $7@7.50 ℔ bushel.

POULTRY—Live chickens, quotable at 75@85c per pair according to size.

PITTSBURGH LIVE STOCK MARKET.

CENTRAL STOCK YARDS, EAST LIBERTY, THURSDAY, June 12, 1873.

CATTLE.

The market continues fairly active, and prices are firm though without quotable change, as compared with the date of our last report. Sellers still seem to have the market well under control, and as nearly all the cattle have been selling on arrival, there has been no accumulation, hence, the advance established early in the week has been fully sustained. Prime 1,300@1,350 steers, fat and smooth, quotable at 6⅞@6⅞; prime 1,200@1,250 averages, 6⅞@6⅞; extra 1,100@1,150, 6@6⅞. good, same weights, 5⅞@6. Our Buffalo report of yesterday stated that while heavy cattle held their own light cattle were a shade weaker; from this it is evident that the market, as noted in our last report, is reacting in this respect, and prime heavy cattle will soon be just as much if not more inquired for as light ones, and very likely, at better prices; furthermore, we expect that the bulk of the offerings during the next week or two will consist of the latter grade, while the former will be in light supply, and if so nice smooth heavy steers will again be at a premium. There is little or no inquiry for stock cattle, and prices, in consequence, are lower, ranging from 4 to 5c, as to quality. The bull trade continues dull, but prices are without quotable change, ranging from 3⅞ to 4⅞.

HOGS.

Trade continues slow and unsatisfactory to sellers, but, taking everything into consideration, it is all that can reasonably be expected. Our Buffalo dispatch of Wednesday says that eastern buyers refused to pay above 4⅞ for choice lots, while the same grade here is fairly quotable at 5c. Medium to fair mixed may be fairly quoted at 4.65@4.75. The bulk of the offerings this week have been common in point of quality, consisting of coarse, rough stock, not suited for shipping, hence, the best grades have sold more readily than they would have otherwise.

SHEEP.

Market to-day was unsatisfactory to sellers, and as the supply was considerably in excess of the demand, prices were weak and drooping—it looks as if quite a number will have to go east in first hands, as the most of the buyers have bought all they want this week, and there are several lots remaining unsold. Quotations may be fairly given as follows: Extra 95@100 lbs, 5.50@5.60; prime 85@90, 5.25@5.30, 75@80, 4⅞@5. Lambs, of which the offerings are very limited, 45@60 lbs, 7@8⅞c.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 12, 1873.

The Crude market was reported weaker today, although the offerings were light, and prices, as compared with Wednesday, were without quotable change: $2.25@2.27⅞ per brl. at Parker, equal to about 6⅞c delivered here—there was a sale late in the day of 2,000 brls at $2.26⅞. Refined is still reported very quiet but unchanged; fairly quotable at 15⅞@16 on cars here, and 19⅞@19⅞ delivered in Philadelphia.—sale of 1,000 brls reported at 16. Exporters are taking hold sparingly, but refiners generally do not seem disposed to force the market, hence, prices are sustained.

The supply of Oil Barrels is very much reduced, and prices in consequence are firm though unchanged, $2.25 for city make, 10 lb. hoops, and $2.15 for countries.

Wool Markets.

PHILADELPHIA, June 11.—There is no material change to be noted in prices or demand, though the transactions have been on a somewhat smaller scale, owing, apparently, to the decreasing stock of desirable grades of old, and the yet scanty receipts of new. The manufacturers are very bare of supplies, and are only purchasing from hand to mouth. Several lots of Jersey fleece sold at 40c, and throughout the West the current rates are 38@45c. Sales of 250,000 lbs, within the range of the following prices: Pennsylvania and Ohio—Full blood fleece, 52@54c; three quarter blood fleece, 50@52c; half blood fleece, 48@50c; common and quarter blood fleece, 43@45c; common fleece, 38@40 cents; tub-washed, 50@55 cents; unwashed, 31@34c. New York and Michigan—Super Saxony fleece, 50@52; full blood fleece, 48@50; three quarter blood fleece, 47@49c; half blood fleece, 45@48c; common and quarter blood fleece, 40@43; common fleece, 38@40—Press.

NEW YORK, June 11.—We have no material change to note in the situation; the market continues steady under a moderate demand, and prices are considered quite firm. Owing to the advices from California, stating that new wool was selling readily at from 20 to 23 cents, prices here may be called a trifle higher, some dealers asking as high as 32 cents for prime lots, while sales have been reported at Boston at three cents in advance on that figure. There have been several small lots of new Ohio Fleece received, but other kinds are still behind-hand. Advices from Dublin, dated May 29, says: "Our market presented an unusually animated appearance to-day, in consequence of the large number of English staplers who were in attendance. The supply of wool was tolerably large: buyers showed more disposition to operate, and we quote an advance farthing to halfpenny on last week's prices. Scarcely one of the large clips have been put upon the market yet, and many of them are still unborn." The sales here comprise 35,000 lbs. Montevideo at 33⅞ cents; 6,000 lbs. Oregon, 37⅞; 3,000 lbs. X and super Pulled, 37⅞@44; 22,000 lbs. Colorado, 21⅞@23; 12,000 lb. Fall California, 20; 2,000 lb. new clip X Ohio Fleeces, 5⅞; 10,000 lb. old do. and State, 42@54; 3,000 lb. heavy do., 45; 3,000 lb. tub-washed, 52⅞; 36 bales East India, 35 do. Cape.

Iron Markets.

PHILADELPHIA, June 11.—Pig Iron is inactive at the decline noted last week. We quote No. 1 foundry at $48; No. 2 at $45@46. White and Mottled at $32, and Grey Forge $37@38—all at the furnace—Bar Iron is quoted at 4 4-10c ℔ lb. Scotch Pig—Eglinton will not bring over $51.50 ℔ ton. Nails sell as wanted at $4.25 ℔ keg.

NEW YORK, June 11.—The Shipping List says: Scotch Pig is without change of note: the market has the downward tendency previously noted, and the low prices that are ruling at present have caused some speculative inquiry, but at the close the market shows no improvement from previous reports. The sales comprise 630 tons Monkland and Eglinton from dock, 200 do. of which were resold, and 100 do. Glengarnock, on terms not made public, but at less than our quotations. We quote ex-ship $46 for Eglinton and $47 for Glengarnock, and from yard an advance of $1@2 on these figures is asked. American Pig is quiet but steady, most of the outside lots of No. 1 brands offering have been disposed of, and there is little or none now to be had below the Companies' prices. In the Lehigh districts there is a scarcity of No. 1 brands, and a number of the furnaces are still behind in their deliveries. Though there is less iron offering from outside parties yet the market cannot be quoted any firmer; we quote No. 1 $47@50 and No 2 which is more plenty $44@47. We note sales of 300 tons outside lots Lehigh brands at $47@48, and one furnace has contracted for 20,000 tons No. 2 and No. 2 X for delivery during the remainder of the year, the terms of which were withheld, 100 do. No. 1 Hudson $48, and 100 do. No. 1 Crane at a private price. In new rails we hear of nothing doing; old also are quiet, 500 tons D. H. at Baltimore sold at $52, cash. Scrap is entirely nominal, 300 tons No. 1 for shipment East, sold on terms not made public. Refined Bar from store continues languid, even at some concession from present quotations. English cannot now be imported at the home quotations, and unless there should be a very large decline in English, say about 33⅞ ℔ cent., which does not seem at all probable, it is doubtful if any more orders will go out from this country this year.

Railroad Collision.

Yesterday morning, near Wall's Station, on the Pennsylvania Railroad, the Pittsburgh Express ran into a coal train which was crossing the track, having just come from the Oak Hill mines. The Express was checked as soon as possible. The engine of the coal train was hurled down the embankment into Turtle Creek, but the engineer and fireman escaped with little injury. The engine of the Express was somewhat damaged, and a number of coal cars demolished, but no one was hurt. None of the Express train cars were thrown from the track.

An "Affectionate" Son.

Last evening officer Louis Eckert brought to the lock-up Jacob Dietrich, whom he arrested near his home on Pride street. It is alleged against him that he has kept constantly drunk for the past three years, abusing his family, and refusing to provide for them. Last night, it is alleged, he went to his father's house, abused him, knocked him down, and finally drew a knife upon him. The officer made the charge of drunk against him, but stated that his father would make a more serious charge this morning.

"Resolved, That the Mayor be instructed and requested to call a public meeting of the citizens of this city, on next Monday, June 16th, to consider and devise means and plans for the establishment of an Exposition and Mechanic's Institute Association in this city, and that the citizens of Allegheny and adjoining cities be requested to attend the meeting and co-operate with us."

In compliance with the above resolution of Councils, I respectfully request the citizens of Pittsburgh, Allegheny and adjoining boroughs to meet in the Common Council Chamber of the city of Pittsburgh on Monday, June 16th, at 2 o'clock P. TERRIBLE ACCIDENT.

A Man Falls Through the Pan Handle Trestle Work, a Distance of Thirty Feet, at Temperanceville, and is Killed.

Last evening about eight o'clock a terrible accident occured at Temperanceville, on the Pan Handle road trestle work. At that time a man was walking the track, when a train came along, and he dropped down between the timber, holding on to one of the ties with his hands. As the train was passing he was compelled to let go his hold from exhaustion, and dropped down into the ravine below, injuring him so severely that he died a short time after. The party appeared to be rather a young man, but no one in the vicinity seemed to know him. From papers found upon his person it is supposed that his name is Robinson, and that he is an insurance agent whose residence is in Cleveland. Some parties in the vicinity appear to think that this was no accident, but a clear case of suicide.

CITY PROPERTY.

Meeting Last Night.

The City Property Committee of Councils held a meeting last night in Clerk Morrow's office.

The pay roll amounting to $5,693 60 was approved. It included last month, estimated for pick-up expenses which were $5,480.

A communication was received from Health Officer Gray in relation to the water in the basement of the lock up in the Nineteenth ward. The cellar being, it is said, in very bad condition, was ordered to be drained.

A resolution in relation to the purchase of two lots and the ground and building of the co-operative store on the South Side for lock up purposes was referred to a sub committee.

The communication of Mrs. Denny, presented in Councils last Monday, in relation to Snyder Square, on Penn avenue, was read. In 1836, Mrs. Denny presented that plot of ground to the city for a beauty spot, but it seems that it was never formally accepted, and ever since that time Mrs. Denny has been paying the taxes on it. When the letter was read Mr. Duff suggested that the property might be "burdened with thirty-seven years of taxation." Mr. McCune was appointed to visit Mrs. Denny and ascertain on what terms the city could get possession of the property. The committee then adjourned.

THE RACES YESTERDAY.

The Inauguration of Friendship Driving Park Yesterday—A Fine Day and a Fine Race—Not Very Fast Time, but an Exciting Contest.

The season at Friendship Driving Park was inaugurated yesterday by a trotting race for a purse of eight hundred dollars; five hundred dollars to go to the first horse, two hundred dollars to the second, and one hundred dollars to the third.

The day was all that could be desired, as regards weather, and as a number of pretty fast nags had been entered, quite interesting sport was expected. The races were witnessed by probably twelve hundred spectators. No very fast time was made as the track was very rough and heavy, but nevertheless, a very exciting and interesting race was had. The race was mile heats, best three in five to harness, with the following entries: Joseph Beltier enters g. g. "Hot Punch;" Rody Patterson b. g. "Toledo Boy;" R. B. Miller b. g. "King William;" Frank Plunkett b. g. "Perry," and Mr. Knox b. m. "Ada."

"Toledo Boy," before the start, was entirely the favorite at the pools, and sold freely two to one against "King William." "Perry," too, had his favorites, while "Ada" and "Hot Punch" were not left in the cold for backers. Pool selling was quite brisk, and much interest was centered in the race.

FIRST HEAT.

At half-past three o'clock, after considerable scoring and several false starts, the race commenced by a send-off as follows: "Toledo Boy" taking the lead, "King William" second, "Perry" third, "Ada" fourth, and "Hot Punch" last. The horses all had a good send-off, but "Toledo Boy" broke badly and left a gap, which was soon closed up by "King William," who made the first half mile in 1:16¼. The heat was very exciting, and much betting was going on at the stand, three to one being freely offered on "King William," who came in first, making the mile in 2:38½—"Toledo Boy" next, and "Perry" next, the other horses having been distanced in the field.

SECOND HEAT.

Betting now had entirely changed, and "King William" at once rose into popular favor as the horse. The send-off for the second heat was made as follows: "King William" taking the lead, "Toledo Boy" next, "Perry" third, and then "Hot Punch" and "Ada." In this heat "King William" seemed to make a very poor start off, and came in last. The first half mile was made in 1:24. "Toledo Boy" having the lead, which he maintained during the entire heat, making the mile in 2:44, not very fast time surely, but nevertheless it proved a very exciting little contest, as "Perry" and "King William" came in neck and neck. "Ada" came in second on this heat.

THIRD HEAT.

This certainly was a very exciting race, and "King William" was still the favorite in the pools, though "Toledo Boy" had risen considerable in betting estimation. The start off in this heat was very even, and withal very exciting. "Toledo Boy" took the lead at the start, which he kept until the first half mile was reached, which he made in 1:21½. "King William" coming second, "Perry" third, "Ada" fourth, and "Hot Punch" last. In the second half mile "Toledo Boy" commenced to break badly, and "King William" at once took advantage of the position, making a fine burst of speed and coming in first nicely. Time 2:41¾. "Toledo Boy" came second, "Hot Punch" third, "Ada" fourth, "Perry" having been almost distanced in the field.

FOURTH HEAT.

"King William" now was the favorite of the field, and bets were freely offered on him. The start in this race was made after considerable scoring and a little jockeying, the drivers of all the horses seeming to act a little contrary. The start, however, was made with "King William" taking the lead, which he maintained well during the entire heat. The first half mile was made in 1:21¾ "Toledo Boy" following close up to the "King's" heels, and giving him a lively race. He, however, was equal to the occasion, having come in first on the home stretch, making the mile in 2:41¾. This ended the race, and "King William" was declared the winner of the first prize, $500; "Toledo Boy" second, $200, and "Hot Punch" third, $100.

The following is a summary of the race: "Toledo Boy," 2, 1, 2, 2; "King William," 1, 4, 1, 1; "Ada," 5, 2, 4, 3; "Perry," 3, 5, 5, 5; "Hot Punch," 4, 3, 3, 4.

TIME.

2:38½, 2:44, 2:41¾ and 2:41¾.

The second day's session of the Eighth Annual Convention of the Protestant Episcopal Church of the Diocese of Pittsburgh commenced yesterday morning in the chapel of Trinity Church, on Sixth avenue. The Convention met at nine o'clock, and after prayer, was called to order by the Bishop, who called Dean Smith to the chair. Reports from regular committees were called for by the chair. The report of the committee on unfinished business, to the effect that they had no unfinished business on hand except such as had been referred to special comittees, was accepted and the committee discharged.

Mr. Hays, from the special committee appointed at the last Convention in reference to the expediency of inserting in the form of Charter for parishes a clause or section forbidding vestries to charge or encumber any church property held by them or to alienate the same from uses to which it is held without the consent of the Bishop and Standing Committee, reported that it would be inexpedient as there seemed to be no necessity for making any such insertion. The report was accepted and committee discharged.

Rev. Dr. White presented a report from the Committee on Federate Council of the Diocese of Pennsylvania. It stated that at a joint meeting of the committees of the three Dioceses, held at Philadelphia on the 8th of June, 1873, resolutions were adopted setting forth that the formation of a Federate Council was desirable. That for the present the action of the Federate Council be for deliberation and advice, and for any interest common to all the Dioceses. That eight clerical and eight lay delegates be elected by each Diocese to meet at the call of the Bishop. The committee not being of one mind in regard to the resolutions, and inasmuch as the Diocese of Pennsylvania at its last meeting took no steps to carry them into effect, the committee recommended that no action be taken. The report was accepted and the committee discharged.

Josiah King presented the report of the Committee on the Religious Celebration of the centenary. It stated that inasmuch as this Diocese is an integral part of the Commonwealth of Pennsylvania, in which our national independence was declared, there is peculiar propriety in taking some action in reference to religious observances at the approaching centenary. The request of the committee to be continued in order to confer with the Bishop on the subject, and report at the next Convention was granted.

Rev. Mr. Getz from the Committee on the Admission of Parishes reported that they had examined the charter of the Church of the Nativity, at Chartiers, and found it all right. The report was accepted and the recommendation of the Committee that the Parish be admitted was adopted.

Rev. Mr. Getz also presented the report of the Committee on a systematic plan for increasing Missionary offerings. It recommended to each clergymen having a cure within the Diocese to adopt the system of personal pledges to the funds of the Board of Diocesan Missions, and that collections in envelopes be made once every three months. The report was accepted and also the resolutions it contained with the following supplemental resolution, offered by Rev. Spaulding, were adopted:

Resolved, That it be recommended to the Rector and Wardens of every congregation to see that application be made once a year to every communicant and regular attendant of the church for a pledge for the support of Diocesan Missions for the Conventional year.

The report of the Finance Committee was read by Mr. King and a resolution offered by Mr. Hay was adopted referring again to the Finance Committee, the subject of the Bishop's expenses. The following we take from the Finance Committee's report:

On the first day of June, 1872, the Christmas Fund amounted to $1,059 22. During the past year, twenty six Parishes have contributed to it $795.78, and $525.00 has been paid out to its beneficiaries, leaving the Fund on the first of June, 1873, $1,330 00 in the hands of Joseph H. Hill, the Treasurer, bearing interest.

The Episcopal Fund now amounts to the sum of $48,368.97; which amount includes $1,824.43 notes given by subscribers to the Fund in settlement of their subscriptions, and $2,610.00, contributed towards the purchase of the Bishop's house and lot, in order to relieve him to some extent from the payment of rent. It is safely and prudently invested in the manner shown in the Treasurer's report, and is substantially unchanged from last year. The income received during the past year has been $2,561.50.

The total of the schedule of assessments upon the parishes of the sums necessary to be raised by assessment for the year from June 1, 1873, to May 31, 1874, inclusive, is as follows: For Convention and Diocesan expenses, $700; for Bishop's salary, $2,000: total, $2,700.

The Committee on Canons reported on proposed changes in the constitution of the Church in the United States, recommending that a communication from the Secretary of the House of Clerical and Lay Deputies of the General Convention in reference to proposed alterations in the constitution be published in the Journal of the Convention.

On motion of Mr. Taylor it was resolved that hereafter the names of Deans of convocations be published in the list of members of the Board of Missions.

On motion of Dr. Scarborough, the Committee on the inability of the Bishop to perform official duties was empowered to act for the Convention.

The report of the Committee on the state of the Bishop's health was, on motion of Dr. Page, ordered to be printed in all the city papers. The following are the resolutions:

The undersigned, a committee appointed to prepare a resolution which should embody the sense of the Convention touching the partial recovery of the Bishop of the Diocese from his recent severe illness, and expressing the hope that he will soon be entirely restored to health and strength, beg leave to report as follows:

This Convention desires to put on record its deep and abiding sense of gratitude to Almighty God for that he has mercifully spared the life of their beloved Bishop and brought him safely through a most trying and anxious sickness.

They rejoice that he is able once more to be present among them though still enfeebled, and they now confidently anticipate his final and complete restoration. They beg leave to assure him of their increasing confidence and love; and, while his ministrations and presence in the Diocese are sadly missed, they beg him not to retard the work of restoration by over anxiety, or a too speedy resumption of official duties.

As in the past months he has been often and solemnly remembered in our prayers, and we will continue our intercessions till our whole desire be granted.

[Signed,]
JOHN SCARBOROUGH,
DAVID C. PAGE,
S. D. McCONNELL,
HILL BURGWIN,
PEARSON CHURCH.

On motion of Mr. Hay it was decided that the next annual Convention would be held in Trinity Church, this city.

A vote of thanks was extended to the wardens for the use of Trinity Church, and to the Choir for its services.

Seven hundred copies of the journal were ordered to be printed.

On motion of Mr. Souther, a copy of the report and resolutions of the committee on the inability of the Bishop, were ordered to be certified by the officers and sent to him.

Mr. Hay moved that the secretary be paid one hundred dollars, which was carried. The thanks of the Convention were extended to Rev. Smith for his Convention sermon, to Mr. Van Doren for his services as Treasurer for several years, also to a number of other persons, and when the blessing was pronounced, the Convention adjourned *sine die*.

POISONING THE SICK.

There never was a specialty in medicine that was not pirated. Hostetter's Stomach Bitters is no exception to the general rule. Fraud follows in the track of the Great Vegetable Restorative, as it makes the circle of the world, and offers its pernicious imitations to the sick at every turn, anxious to drench the public with their trash. The imitators and counterfeiters offer it by the gallon, the barrel, the hogshead, as well as by the bottle. Beware of this deluge of abominations. Bear in mind that the true article is sold in bottles only, and the impress of genuineness is to be found upon the glass itself as well as upon the finely engraved government stamp and the elegant label. The great vegetable tonic prevents and cures all bilious disorders and complaints of the digestive organs and nervous system, maladies upon which the vile imitations produce no more effect than the Pope's Bull upon the comet.

THE COURTS.

DISTRICT COURT—NO. 1.

[Before Judge Hampton.]

The charge of the Court in the case of the Pittsburgh Petroleum Company, for use of D. Hostetter, vs. the Standard Oil Company, was delivered in the morning, and a few minutes before eleven the jury retired to deliberate upon a verdict. His Honor Judge Hampton awaited their return into Court until two o'clock, and they not appearing, an adjournment was ordered until to-day. About four o'clock the jury came in with a sealed verdict, which will be made known this morning.

THE ARGUMENT LISTS

are still engaging the attention of Judges Sterrett and Stowe. The only important case of public interest argued yesterday was that of the Guardians of the Poor of Pittsburgh vs. the Allegheny County Home and Allegheny City, which appeared on the Quarter Sessions list. The argument came up on the exceptions to the report of the Commissioners appointed to apportion the interest of the several districts in the County Home property, a division being necessitated in consequence of the consolidation of the outer wards. The Court took charge of the papers and reserved its decision.

COURT OF QUARTER SESSIONS—JUDGE COLLIER.

In the case of Councilman J. W. McGimpsey against policeman James Cunningham, the jury returned a verdict of guilty of assault and battery. Mr. Cunningham, it will be recollected, arrested Mr. McGimpsey for standing on the sidewalk, and, as the officer alleged, obstructing the thoroughfare. Robert Frazier indicted for larceny and receiving stolen goods, on oath of Geo. Sproull, plead guilty to the larceny of a silver watch and gold chain belonging to the deponent, of the value of $110.

John Williams was next placed on trial on an indictment charging him with larceny, on oath of Benjamin F. Clark, Chief of Police of Allegheny city. The accused stood charged with stealing a gold watch and coat, belonging to R. H. Adams. A verdict of guilty was returned by the jury.

Ann Dugan plead *nolle contendere* to an indictment for larceny and receiving stolen goods, founded on the oath of Benjamin F. Clark, Chief of Police of Allegheny. The accused, it will be recollected, was arrested for stealing a lot of personal property from Mr. Maginn in Allegheny city.

The same defendant also entered a plea of *nolle contendre* on an indictment for larceny and receiving stolen goods preferred by Thomas O'Conner, who charged her with stealing a lot of wearing apparel.

John Burke was convicted of an assault and battery on Sarah Burke, and Frank Lynch plead guilty to a similar indictment founded on the oath of Edward Davis.

Commonwealth vs. Thomas Thompson, indicted for assault and battery on oath of James Griffiths. A verdict of guilty, with a recommendation to mercy, was rendered.

Lynn Magoffin was then placed on trial for assault and battery, on oath of Mr. Dugan. The case is on trial.
